# ANLÄGGNINGSVÄRLDEN

The magazine for professionals and decision makers

**Anläggningsvärlden** are an important tool for our readers. We write about the construction and forestry industry for professionals and decision makers who want to follow the development of the entire sector. In our printed magazine and on our digital platforms we publish quick news, business reports and key macroeconomic figures related to the companies in the industry. Anläggningsvärlden is distributed to selected managers and decision makers at the most well-managed companies in the construction- and forestry industry in Scandinavia.
